Getting Started with MIT App Inventor

App Inventor is a cloud-based tool, which means you can build apps right in your web browser. This website offers all the support you'll need to learn how to build your own apps. **Visit it at ai2.appinventor.mit.edu.** You can get there by clicking the orange "Create Apps!" button from any page on this website.

1. Setup Instructions: Set up your phone or tablet for live testing (or, start the emulator if you don't have a mobile device)

2. Designer and Blocks Editor Overview: Take a tour of the App Inventor environment

3. Beginner Tutorials: Jump in and get started programming in App Inventor

4. Packaging and Sharing Apps: Package your app and share it with your friends
